News and Comment

"Uncle Joe" Cannon at 78 has thrown
his hat into the ring for Congress again.
He is almost as spry as the Governor of
Kentucky.

Two San Francisco clergymen have
resigned to become undertakers, doubt-
less believing that there is more money
in burying people than in preaching their
funerals.

The California prune crop is immense,
being estimated at 200,000,000 pounds.
Boarding house keepers are jubilant,
while boarders are correspondingly de-
pressed.

The superintendent of public schools
in Adair and the city attorney of Cat-
letsburg were married last month, but
it has just been made public. This
sounds strange, but the one was Miss
Pearl Hindman, the other Edgar Poe
Harris. The question now is, will he
live with her or she with him, or will
one resign?

A convict in the Tennessee peniten-
tiary was caught making counterfeit
money. As he is in for life, he is one
man that can go up against Uncle Sam
with impunity.

Three dispeptics in Indiana claim to
have been cured by eating a spoonful of
boiled sand a day. We have always
heard that it is good to have sand in
one's craw.

The weather bureau is said to cost
over a million and a half a year. A
good deal of money for the people to
pay to be told that the weather is going
to be just the reverse of what it prom-
ises.

A secret society in Atlanta has the
distinction of being the only one whose
president is under sentence of death for
the murder of a young girl. He was
elected after his conviction, but this
sort of expression of confidence will not
help the order in public favor.

If Peter Peter, the pumpkin eater, had
had a wife and couldn't keep her, with
no more expense than that, how are we
poor devils to keep ours, with meat and
everything soaring skyward in price?

When beef gets to be a dollar a pound
there will be less effort to solve the mys-
tery of hash.

A St. Louis court will be called on to
determine whether the head is a part of
the body. If it were not, habeas corpus
proceedings would seldom be invoked.
Few men would care to have the body if
the head was omitted.

A Missouri woman choked to death on
a beefsteak and a three-line telegram
told the story. When beef gets to be a
dollar a pound, as the meat packers pre-
dict, such an occurrence will be given
first-page, double-head prominence to
show how wealthy the victim was and

what an envied position she enjoyed.

The Louisville Herald is rather a good
good newspaper, but it needs an editor-
ial writer. The guff the one on deck
gives its readers is rotten.

The Commerce Commission says
"Man's failure" was the cause of the
New Haven wreck. It might have been
the old Adamic way of laying it on the
woman, but there was none to lay it on.

An o'possum was caught on a prom-
inent street the other night in the rural
community known as Lexington in the
adjoining county of Fayette. He possi-
bly wanted to see what Fashion Week
there is like.

The special session of the Tennessee
Legislature has adjourned without pass-
ing the three anti-liquor laws, which it
was called to pass, and Gov. Hooper says
he may call another extra session. The
disgraceful session just ended would
have conveyed the idea to a less dense
individual to let such a body go back to
the vile work from which it sprung to
be known no more.

The Irvine Sun has arisen, with John
W. Watkins as editor, who publishes a
rather grandiloquent salutory. It will
be Republican in politics and patent in-
side in its composition.

Sixty divorces were granted and 92
marriage licenses issued in Cincinnati
last week, which is more than maintain-
ing the statement of the State Secretary
that one couple out of every seven in
Ohio obtained divorce. There were 43,
357 marriages in the State last year and
13,724 divorces.

The special session of the Tennessee
Legislature changed the law from hang-
ing to electrocution, but that seems too
easy a death for the rascals who en-
gaged in gun play on the floor of the
House.

The Louisville Times is the best af-
ternoon paper in the country, but it is
not so good as usual when W. S. Kalen-
bacher's political dope is omitted.

seeds at attractive prices. See us

Free Masonry in The West.

The 125th anniversary of the introduc-
tion of Free Masonry into Kentucky and
the "West" is to be celebrated in Lex-
ington November 17. Lexington Lodge
No. 1 was chartered by the Grand Lodge
of Virginia on that day a century and a
quarter ago, and four other lodges were
established by the same authority be-
fore the dawn of the 19th century. The
occasion is to be made a memorable
event in the history of the order in Ken-
tucky.

Col. McNab's Long Service.

Col. John McNab will have been a
conductor on the L. & N. for 43 years
tomorrow. He is the oldest passenger
conductor in point of service on the
road and in all that time, he tells the
Frankfort State Journal, no passenger
under his care has been killed or main-
ed. Col. McNab, he is on the Govern-
or's staff, is a rich man, but he cannot
give up the pleasure of meeting friends
on his run between Lexington and Lou-
isville, so every spring, after spending
the winter on his orange farm in Florida,
where he hob-nobs with millionaires and
sails around in his own private yacht,
he returns to his run, where everybody
knows and loves him. Every Christmas
he gets enough presents to fill a car
from the ladies with whom he is an es-
pecial favorite, because of his court-
sies.

Durable and Sanitary of all Mattresses, in selected patterns of the best qualities of Satin-
finish, Dust-proof Tickings—WITHOUT EXTRA CHARGE.

Beware of so-called "Special Sales" on "Cotton-felt" or "Felt" Mattresses—said to be
the "genuine kind" and offered at such ridiculously low prices as are sometimes seen dis-
played. You do not know WHAT sort of material has been hastily STUFFED into the
ticking. From a Sanitary standpoint, it may be vile; unfit for any person to sleep upon. As
for genuine Comfort and Durability, such Mattresses are utterly worthless. It don't pay
to buy them.

Stearns & Foster Mattresses have a laced opening (Pat. applied for) through which
you can see and examine the inside of the Mattress you GET. That's the safe way to buy
a Mattress. You know what you are getting.

Stearns & Foster Mattresses are made of Clean, Sanitary Cotton; felted into hundreds
of little webs forming many Springy, Buoyant layers standing nearly three feet high. These
layers are then LAID BY HAND and compressed to ONE-SIXTH their original height
and encased in the ticking; then tufted to just the proper tension so as to be Soft, yet Firm,
half yielding to your figure, but supporting it in perfect relaxation.

You will say—

"I never Knew a Mattress could be so Comfortable."

That's just what satisfied users of Stearns & Foster Mattresses are saying.
You owe it to yourself to get one and enjoy rest that is Refreshing—Comfortable—
Healthful.

You don't have to be put to the expense and inconvenience of sending a Stearns &
Foster Mattress away to be "Made Over" or "Renovated." They never require it. An
occasional Sun Bath keeps them fresh and clean.

Don't Fail to attend this Sale. Come today.

Select the Mattress you want—NOW. Don't put up longer with that old uncom-
fortable Mattress.

POLITICS IN FAYETTE.

The political pot is beginning to simmer over in Fayette and as is usual over there, we expect to see it boil over. Democratic Campaign Chairman Hon. Thomas A. Combs has stirred up the monkeys in the aggregation of sore-headed Democrats, Republicans and Bull Moores and made them wiggle and squirm by distributing a folder with pictures of

the good roads that formerly prevailed in the county and one of the handsomest court-houses in the State, built by the Democrats, with the question asked, what have the fusionists built?

The folder shows that few if any of the fair promises made four years ago have been redeemed and that the fusionists have defied the law by failing to publish annually a financial statement and list of claims allowed against the county.

One of the claims made four years ago was that Judge Bullock was spending too much money on the turnpikes. The folder shows that in three years and seven months the Democrats spent \$258,250.60 and the fusionist administration spent \$312,513.66 from June 1, 1910, to Aug. 1, 1913. Then the pikes of Fayette county were the models for the world, and kept in condition for any kind of travel. Now with \$54,263.06 more than ever spent on them, they are in some cases as bad as dirt roads, with none of them in first-class condition.

The cry of machine politics four years ago was one of the fusionists' main reliances. This time the fusion ticket was thrust upon its supporters by a "Committee of Fifteen," who met in secret conclave over a Mill-street saloon. They were afraid to go before the people. The Democratic ticket was nominated in a fair and open primary, in which 4,980 voters participated. Under present conditions the tables are turned on the fusion aggregation will now have to defend the manifest machine rule.

In conversation with an expert book keeper, he told us that he had never seen matters in so chaotic a condition as they are in the Fayette county court-house. He is trying to find heads and tails to matters, but it seems impossible. Incompetency, ignorance and extravagance are shown on every hand and when those conditions are shown, as the committee will show them up, it will be farewells for the crowd, whose desire for office is greater than their ability to fill them properly and who got in by fooling a sufficient number of people, who will not be fooled again. In fact, the utter and complete failure of the fusionists to comply with any of their promises seems almost to give the Democrats, headed by that victor of many political battles, and man of resource, Judge Frank A. Bullock, for county judge, a walk-over, and the county a redemption from incompetent and extravagant control.

The Republicans of New York met in State convention, last week and made numerous recommendations looking to the rehabilitation of the once great party. A National convention is proposed "as soon as practical" to consider the conditions of misfortune that have come

regrets over the situation.

But Mr. Hampton, the splendid citizen that he has always been, the true friend that he is, must not put himself up against the laws of the state and expect them to cringe at his bidding or crumble at his feet. He must obey the law or take the consequences the same as the humblest man in the state.

Judge Benton is treating the offender just as he would the humblest man in the district, not as a store judge might treat an old offender but rather as "man to man," and Mr. Hampton is equally frank and courteous. But these are not the questions. The question is where is the right and where is the wrong? How best is the question to be settled? We have confidence in the supremacy of the law.

Judge Benton is doing just what he ought to do, what he was elected to do and just what he swore in his oath of office he would do, no more, no less. Mr. Hampton is deliberately putting the Court to the test. He is forcing Judge Benton to do what is painful personally for him to do and what he would gladly avoid but for the oath he has taken before his God and in the presence of the people of his district. If the witness can or does in any way keep Judge Benton from enforcing the law then the Court will lose its power and will be brought into contempt. We had better quit making laws and go to building air castles and making a laughing stock of ourselves.

This matter concerns not Clark county alone but the entire state and especially this circuit district. Court convenes in our county next week and later on in the other counties of the district. The same questions that have come up in Clark are liable to come up in our own and other counties. We certainly trust the results may be different. In any event that may arise the Climax stands for the enforcement of the law and will exert every means within its power in upholding the Court in maintaining the dignity, strength and enforcement of the law. We are not an alarmist, we do not believe the same conditions as now exist in Clark will confront us in Madison, but whether they do or not we believe it to be the duty of good citizenship everywhere, of every voter in the county, in the district, in the state, in the crisis that now confronts us to give his most earnest support to the upholding of the law.

This is a serious matter and worthy of the thoughtful consideration of every patriotic citizen. Let every man do his part in strengthening the arms of those attempting to enforce the law and then election frauds that have cursed the state for so many years will be swept away.

According to estimates of Treasury experts, 425,000 American citizens will be required to keep accounts of their incomes from March 1, last, under the income tax feature of the Tariff Bill. The tax is expected to yield \$82,298,000 annually. Exemptions agreed upon are \$3,000 for single men and \$4,000 for married men.

The salaries of the clerks of the two United States District courts of Kentucky at Louisville and Covington are fixed at \$4,500 a year in a bill introduced in the House by Representative Henry D. Clayton, of Alabama, chairman of the Judiciary Committee. The bill abolishes the present fee system in all the offices of the country and provides a penalty of imprisonment not exceeding five years or a fine from \$50 to \$500, for any clerk who accepts a fee or other remuneration for his services, aside from his prescribed salary.

"That the best you can do in the way of sausage roll!" he asked. "Why," said the host, "isn't it good?" "Oh, it's good enough, perhaps, but the ends of it don't suit me."

"The ends. What's the matter with them?" "Too near together," said the hungry youth and the inn keeper took the hint.

Petty Burglaries.

Recently there have been quite a number of petty burglaries committed in the city. Money, not jewelry or other valuables, seems to be what the thieves want.

The theft of Mr. T. K. Hamilton's trunks with a few dollars in money was noted a few weeks ago. Since then the following residences have been entered and small amounts varying from a few cents to about \$10 secured: H. B. Baby, John Duerson, Geo. D. Simmons, Mr. R. Stouffer, Geo. Noland, Mrs. Dora Briggs, Mrs. Emma Hubbard. Attempts were also made on the residences of Dr. M. Blanton, A. R. Paris, Manager Parks, of the Alhambra, and D. W. Anderson's grocery on Irvine street.

It was reported that Thos. A. Best, a street engineer, of Woodland avenue, had been robbed of \$90 but upon investigation this was found to be an error.

Ought to be Hanged.

A note was found among the effects of Mrs. Rollie Stamper, who committed suicide at Ford, an account of which the Clinax gave. Part of the note is: "Today is the third time Rollie has struck me and I can't stand to be beat around. My life is happy at times when he speaks a kind word to me." The cowardly husband is as much her murderer as if he had killed her outright, and death is too good for him.

The Madison Circuit Court will convene next Monday, with 96 Commonwealth cases, mostly old ones in which the accused have not been found. The case was tried last court, resulting in a hung jury.

There are six new and 16 old divorce suits, none of the parties being especially prominent and no sensational charges being made. The civil docket besides includes 33 equity appearances, 31 ordinary appearances, one civil and three Commonwealth appeals. There are 13 old ordinary and 85 old equity appearances.

Clark Not Responsible.

The Winchester Democrat wants it understood that Clark county is not responsible for the saturnalia of crime that has disgraced it, and lays it all on the workmen at the railroad construction camps. They are generally the cause but not entirely.

At Kingston.

Commissioner of Agriculture J. W. Newman was here yesterday returning from the Kingston Chautauqua where he made a rousing speech to the farmers. Like the Waco, the Kingston Chautauqua is largely attended and the exercises are being greatly enjoyed.

Two Killed in Clark.

In a row over his failure to give up part of the road, Ellis Brandenburg was killed and Ben White, a nephew of former postmaster John G. White, was fatally wounded in Clark county. Mrs. Brandenburg was also shot. Charles Hollis who was with White, and who says that they were forced off the pike and had their buggy overturned, was arrested and lodged in jail at Winchester. He claims that Brandenburg shot first. White has since died.

HAMPTON TALKS.

Winchester Man Breaks Silence And Gets Out Of Jail.

Since the editorial in another column was put in type, the Clinax is in receipt today of a telephone message from Winchester which conveys the pleasing news that Mr. Hampton had yielded to the law and been released from custody. He went before the grand jury and said that provided he was permitted to pay their fines, if imposed, he would give the names of the two men to whom he had paid out money to spend in the election. The question was put up to Judge Benton and he agreed to it. Mr. Hampton gave the names, which were withheld, and was released after Judge Benton had read a statement from him giving his position in the premises, which was solely to protect him and his friends, not to defy law. There was a general rejoicing that the matter was settled and Judge and people seemed relieved of a severe strain.

Popular Lectures To Young Men.

Beginning next Sunday night, Dr. Quisenberry will deliver a series of "Heart to heart talks to young men." He will take the young man from his parental fire side and follow him, through all his "ups and downs" until he starts a home of his own. Dr. Quisenberry has, during his varied and long experience as a pastor, foreign travel, platform lecturer, and college president, devoted himself to the interest of young men and young women. He has also interviewed more than one thousand successful men in all walks of life, to ascertain what in their opinion, are the essentials to the greatest success. These lectures have been delivered in one form or another, to thousands, in this country and Canada. He deals in vital problems in such a way that the man is lost sight of and his message is the topic of the hour. In every city where they have been delivered in regular course, as he proposes to do here, his audiences have been limited to the capacity of the buildings in which they were delivered. Through the courtesy of the manager the Opera House has been secured and these lectures will be absolutely free to the public. Admission will be by ticket up until 7 p. m., at which time the doors will be thrown open. Tickets are used that those who wish to hear the entire series may not be crowded out. The orchestra have generously donated their services for the lectures. A musical program will be given from seven

to seven-thirty. A chorus of one hundred voices is expected to lead the singing. Anyone who wishes to join this chorus will report at the Baptist church Wednesday evening sharp. Tickets may be had for the asking at Middleton's Drug Store.

Subjects and dates—Oct. 3th, Dr. Martin of the State University will speak. He will give one of his best lectures. Oct. 12, "The Young Man in the Home, or The Old Nest." Oct. 19th, "The Young Man in Society, or Chasing the Dollar." Oct. 26th, "The Young Man in the Church, or The King Crowned." Nov. 2nd, "The Young Man in Love, or the Crisis." Nov. 16th, "Woe to Marry, When to Marry, and the Wedding, or on the Way to Heaven or Hell."

We predict that the speaker will not lack a crowd. The subjects have to do with the home, the very foundation of all that is good.

Gov. McCreary's Partner.

Miss Annie Clay McDowell, of Lexington, great-grand-daughter of Henry Clay, has been selected as the dancing partner of Gov. McCreary at the Centennial Ball in Louisville this week. Mr. Clay took a large part in the peace negotiations of the War of 1812 and Miss McDowell is the great Pacificator's nearest single woman relative. Miss McDowell is a very pretty girl and the Governor will have to get a move on him to do her honor.

Works Like a Furnace At Far Less Cost!

Moore's Air-Tight Heater is built on an entirely different principle than other heaters. It heats like a furnace—by circulation instead of radiation.

It burns hard coal or the cheapest kind of slack and can be run at less than half the cost of other heaters. Furthermore, it heats a much larger space than any other heater on the market. One Moore's Air Tight Heater will keep your entire house comfortable.

Moore's Air-Tight Heater

is the cleanest and handiest heater ever made. The Egg Shaped Dome and Hot Air Plus Firepot consume all the gas and all the carbon there is in the coal. There are no clinkers and no clinders. The Air Tight Draft Control enables you to hold a fire from 24 to 48 hours and prevents even the slightest waste of fuel. Moore's Air Tight Heater is the only heater having a Dust Flue. It prevents the dust and small ashes from collecting on the carpets and furniture by taking them all up the chimney. The Ashpan Apron prevents any ashes from falling on the floor when pan is removed. All parts are surface ground and fit together air tight. No putty is used in mounting. Nothing but asbestos wickling, which expands and contracts with the heat so that the stove is perfectly air tight under all conditions. Thus it's under your perfect control at all times.

Heats Upstairs and Warms All the Floors!

With Moore's Air Tight Heater the air in the farthest room is heated to the same temperature as the air in the same room as the stove. Just one of these heaters is all that's necessary to heat your entire house—both upstairs and down. And every floor will be as warm as a furnace would make it.

Just think what this means—one stove that will replace two or even three others, give better results than all combined and cost less to operate than any one.

And these are only a few of the many advantages which Moore's Air Tight Heater can offer you. All nickel-plated parts are of the very highest finish through a process known only to the House of Moore. One polishing keeps it like new for a whole year.

Stop in at our store the next time you're down town and let us tell you all about this handsome range. It costs you nothing to investigate.

One for Sunday school executives, including pastors, superintendents, secretaries, librarians, chorists, chairmen of committees, etc.

A banner will be presented to the county having the largest number of registered delegates, and to the county whose registered delegates travel the largest aggregate number of miles.

Another interesting feature of the forty-eighth state convention will be the great mass meeting of thousands of Sunday school workers in an open-air service in one of the parks, to be conducted by Marion Lawrence. The grand old hymns of the church will be sung at this outdoor service as well as during the regular sessions of the convention.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; also cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

NEWS NOTES

The State University Wild Cats defeated the Butler College football team at Lexington 21 to 7.

Two drug crazed negro boys ran amuck at Harrison, Miss., and ten persons were killed before they were captured and lynched.

The glorious meeting in a tobacco warehouse at Maysville, conducted by Evangelist Fife, closed Friday with 115 confessions.

Judge Young held the Montgomery local option election to be void and illegal. The drys had 900 majority according to returns.

Mr. J. C. Dykes, of Clark, and Miss Nannie May Brookshire, of this city, were united in marriage at Lexington Sunday by Rev. I. J. Spencer.

Six saloon licenses were issued in Somerset on the eve of the local option election, thereby insuring bar rooms for another year, no matter how the election goes.

The discovery that some of the bags of silver in the San Francisco mint have been opened necessitated a recount of the \$61,395,000 stored there. So far but \$7 have been found to be missing.

A. A. Clay, of Indian Fields, has sold his farm containing 177 acres, on Hinkston Creek, Montgomery county, to Roy Burns and Thomas Coons, for \$102,500 an acre. Walter and Charles Boyd have bought the Marion Boyd farm, containing 100 acres, near Judy, at \$70.

What the capital of the Bluegrass needs, if you will permit the suggestion is a Parental Home, where innocent, dependent children can be cared for. It is criminal to send these unfortunate little ones to a penal institution.

John T. Jett, committed suicide in Mason county. He was a tobacco buyer during the night rider times and was threatened by the mobs, but he defied them and dared a man to enter his house. He was barricaded and armed and of course they didn't.

Prison Commissioner Dan E. O'Sullivan says that Fayette county has imposed more burdens on the Reform School than any other county in the State in proportion to population. At one time fully ten per cent. of the inmates were from Lexington and Fayette county.

Two boy bandits held up an Express train in Alabama, overpowered the engineer and fireman and made six postal clerks and two express messengers hold up their hands while they took \$50,000 from the express car. Such cowards deserve no place in the south. One determined man could have put the robbers to flight.

Attorney J. A. Edge, of Lexington, has been indicted for false swearing by the Franklin county grand jury, he having sworn that in a case Judge Stout permitted mob at Georgetown to seize and intimidate. The judge says that he was out at dinner when the thing occurred and that when he heard of it secured a release of Edge.

Long Trousers.

First Tramp—"Strange how few of our youthful dreams come true."
Second Tramp—"Oh, I don't know. I remember how I once yearned to wear long trousers. Now I guess I wear them longer than almost anybody in the country."—Puck.

The One Fault.

There was a man
Of history sad
Whose every plan
Went to the bad.
He did not drink,
He did not swear,
Not slyly wink
At siren fair.
Ideals fair,
He would reveal
He could not lie.
He did not steal,
His worth you'd vow
Was something strong,
And yet somehow
His luck went wrong.
The hoped-for bliss
He'd never clutch,
His fault was this—
He talked too much.

Have Beautiful Hair.

Use Parisian Sage.
If your hair is too dry, brittle, dull, thin, or if your scalp burns and itches, immediately begin the use of Parisian Sage. The first application removes the dandruff, cools and invigorates the scalp, and increases the beauty of the hair by making it soft-wavy-abundant. Parisian Sage supplies hair needs. It is delicately perfumed—not sticky or greasy. Surely try a 50c bottle.

Borrowed Humor.

Office Eddie—"I quit me job; de boss look away me personal liberty."
Messenger Joey—"How, Ed?"
Office Eddie—"Wanted me to root for his favorite ball team."—Chicago News.

"It's no use," exclaimed Mr. Briggins. "What is the trouble?"
"Domestic misunderstanding. I told my wife I wanted her to be a suffragette and attend meetings. She began to cry and said I was tired of her society."—Washington Star.

"There," observed Grumley. "goes a man who has made a fortune out of automobiles."
"Manufacturer or sales agent?"
"Neither; he's a notary public and gets a fee for every mortgage he makes out."—Judge.

"Your cows moo in a most peculiar way."
"The instinct for self-preservation develops animals," remarked the farmer.

"Then cows don't want to be run over by the pesky autos, so they are learning to honk."

Obliging Her.

The sweet young thing was being shown through the Baldwin locomotive works.

"What is that thing?" she asked, pointing with her dainty parasol.

"That," answered the guide, "is an engine boiler."

She was an up-to-date young lady and at once became interested. "And why do they boil engines?" she again inquired.

"To make the engine tender," politely replied the resourceful guide.

Rheumatism and Bright's Disease.

Prof. Budlong was Quickly Relieved of Both Afflictions By Using Rheuma.

If you suffer from any form of Rheumatism, remember that RHEUMA goes to work quickly to remove the cause, not simply to relieve the distress. Many years' use has demonstrated that it goes to the seat of the disease and expels the poisonous matter through the natural channels—the kidneys, bowels, liver and skin.

"For many years I was troubled with Rheumatism, also with Bright's Disease of the Kidneys. I suffered awfully, tried many advertised remedies. After using your truly remarkable preparation RHEUMA, I was fully cured."—Prof. C. J. Budlong, Sound View, Conn.

RHEUMA is guaranteed by B. L. Middleton, who sells it for 50 cents a bottle.
